Dear Commissioner Forese,

Quit siding with utilities against consumers trying to do the right thing. Utilities get to sell their generated power to other states many times for more money than they get in Arizona. Solar is not a burden on the power companies. They make money on it and are only trying to pad their pockets.  
Remember you work for the citizens of Arizona not the big corporations.

Sincerely,

Mike Mciver

Dear Commissioner Forese,

Solar use should be encouraged. If the utilities are providing a service to support the solar installation, then an additional charge makes sense. Otherwise it smacks off "I want to punish you for using a competing product." The utility commission should follow all normal governance procedures to represent the interests of Arizonans.

Sincerely,

Diana Lewis

Dear Commissioner Forese,

Regardless of it all...you and the others who are so called "responsible" for our states power distribution are outright liars!

Just look at what is going on here today...Four distribution companies are looking to levy rate charges for SOLAR CUSTOMERS outside of their established procedures! It must be tough to see so many hard working people reduct their dependence for public utilities! Here we are thinking of saving our planet, and all you feel necessary is MONEY MAKING! It's is shameful!!,

Let's do this correctly Arizona...The commission should stick to their word and not let utilities raise rates outside of the proper venue!

Let's do this right...Ok

Dear Commissioner Forese,

Dear Commissioners,

There should be no exceptions to rate cases! Keep your word on this issue and mandate that the four utilities who want to unjustly raise rates by taxing solar households must do so only after a hearing held in the proper venue. No utility should be exempt from the established hearing process for discussing solar tax rates and increases. Further the use of solar should be encouraged and not discouraged with taxes in the valley of the sun and the entire state of Arizona. I've seen the chairman herself in action on other issues and have little confidence this letter will make any difference, however I still urge you to do the right thing on behalf of those who you really should be representing, the consumers of this state.

Sincerely,

Jay Burwell

Don't raise our rates APS !!!

What more of a reason do we need in order for our word to be heard! You've been hammering your solar customers for years now, while still profiting off of our collected generation revenue. Why is that? It is not fair!

Why do you feel that it is OK to raise the rates of your collective solar customers? Follow the law and collectively review the rate case and the utilities shouldn't get special treatment when they want it! It is not legal...

Dear Commissioner Forese,

We need a rate case... OR better a flat rate for grid connection for ALL customers.

Targeting solar customers is discriminatory. My neighbor just installed EnergyStar Appliances and a variable speed pool pump. He's saving about 50 bucks a month. Why should I pay more than him, if I install a solar project that saves me about 50 bucks a month? We are both in need of the grid.

The only equitable solution would be for us both to have a single line item on our electric bill with an equal monthly grid connection fee .

Craig Murphy

Dear Commissioner Forese,

Commissioners:

I'm writing to respectfully request that you deny TEP's proposed net metering changes, along with those of APS, Trico, et. al.

#1 Any rate change like this should be considered as a part of a General Rate Case that can address the utility's root problem and offer an appropriate solution. #2 Changing the net metering rates for rooftop solar customers is not a fair solution to a utility's revenue challenges.

On a personal note, I'd like to join the solar revolution and work in solar in our home state of Arizona. I know I'm not alone. But, in the middle of the interview process with a local solar installer in Tucson recently, new positions were put on hold pending your decision on this net metering proposal by TEP.

You can directly impact my family of four and I'm sure several other job seekers in Arizona. Also, an old college buddy owns a small solar installation business in Tucson called Net Zero. This afternoon, I saw him sitting nervously with other small business owners at TRICO's hearing in Tucson before Judge Rodda. Local businesses say this net metering change could tip the scale for customers and persuade them to pass on solar.

I'm just a citizen. My wife and I are not connected to powerful lobbies with any influence. But we elected you to represent our interests on the Corporation Commission, so we're really hoping you'll listen.

Thank you for your consideration. With kindest regards.

Tim and Melanie Sultan

Dear Commissioner Forese,

We have been told by the government to look for new avenues to provide power. Well in a city like Phoenix and the weather we experience solar energy is the right choice. After many have invested thousands of dollars to help out with the potential savings in the further to help their budget the last thing they need is for the utilities raise their rates. There are ways you as utilities can reduce your costs by implementing more solar and wind power. I am not nieve enough to know there is a cost and it takes time. You have a President in office that says look for alternative energy and we the people are doing that when are corporations going to do their part. We have learned to live on a very tight budget maybe it is time you do the same thing. There are correct channels to go through and by side stepping those channels you are not showing the public that put you into office a warm and fussy feeling.

As Commissioners, elected by we the people, need to be honest and do the right thing. I ask that you rethink your position and be fair to us citizens that are doing our part in changing the footprint and moving forward on utilizing the sun to help provide power.

Sincerely,

Josie Shears

please use caution when implementing proceedings when it comes to energy use. We must work together, put greed aside & focus on the bigger picture. Our world is running in a direction which, if not corrected, will mean a very big change in how society functions. Our natural resources have been used in a unsustainable manner. We are at a turning point. We can either get serious about the need for changes in how we currently address the water, energy, food nexus. Or, we will pay the consequences in the not too distant future. Please, lets do the right thing for society, our peoples & the world. We cannot afford to do otherwise. i am a new solar owner. Raising rates will kill rooftop solar in Arizona.the idea that solar customers will get a unfair use of the grid is simply wrong. Paying our fair share is already in our bills. Solar is not for the rich. It will be if you raise the rates since the average customer will not be able to install if the rate of return on there investment is reduced by a rate hike. Aps is using a false argument . They should be saving money by not having to add to the grid.aps is simply worked about competition from rooftop solar and is trying to slow it down please do your job and protect the consumer

Sincerely,

William Riera

Dear Commissioner Forese,

We purchased expensive solar panels in order to reduce utility expenses in retirement. It saves us about \$100. per month. If you allow these new fees for solar (we already pay an extra fee for line maintence), we will be out \$15,000 and be saving very little! The other utility got away with a \$50. fee, this should not happen with APS! People went to great expense to help reduce air pollution in Phoenix, our savings on utilities should not be taken away simply to replace profits for the utility companies. They are making plenty of money. Please stand up for individuals who made the investment in our community in good faith. Thank you!

Sincerely,

gayle wiens

Dear Commissioner Forese,

Please stick to your word, and only discuss solar rates in the proper venue - a rate case. This allows for due process and for the ACC to evaluate all rates together.

Sincerely,

Dear Commissioner Forese,

Please !!! For the LOVE of GOD, use your heads and remember that solar is an option for everyone, not just the chosen few!

We, who have chosen to install solar collections at our home have done it for a reason...to help save this PLANET !!! The profit taking mindset has proven to be wrong and is going in the wrong direction.

Please...Use your heads and help save this world! We've done our small part, now you could do the same! Stop pushing your votes in favor of the MULTI MILLION DOLLAR power companies who have seems to buy your votes...It's time to act on the behalf of the people who put you in office!

Please act promptly and review the noted bills as they should not become law!

Sincerely,

Nicholas Acciardo

Dear Commissioner Forese,

The fact that you are even contemplating over taxing solar users in this state is reprehensible. Arizona should be a pioneer in promoting what we have an abundance of: the sun. Stop taxing people that spend their hard earned money on doing their part to help the environment.

Sincerely,

Jon grant

Dear Commissioner Forese,

HOW can you allow them to charge residential solar users?!!! I say, "users", because they are not "customers" of theirs.  
HOW do they, can they, charge for the sun?!!!  
They have NO RIGHT!  
STICK TO YOUR WORD!
